

April 2025

Received a gold medal in the EcoVadis Sustainability Rating

Dear valued customers and partners,

Thank you very much for your continued supports to our business.

We are pleased to announce that Asahi Kasei Finechem Co., Ltd. was awarded the Gold Medal by EcoVadis (headquartered in France) in March 2025, among the top 5% of all evaluated companies. This survey evaluates corporate's sustainability initiatives with the four perspectives of "environment", "labor & human rights", "ethics" and "sustainable procurement". Of these, we received a particularly high rating in the "environment" category.

EcoVadis assesses with the international standards for sustainability and covers over 150,000 companies from 250 industries and 185 countries. And now, there is a growing movement around the world to recognize evaluation of EcoVadis as an objective standard for the evaluation of corporate's sustainability efforts.

All of us at the Asahi Kasei Group have been working to promote sustainability. With this achievement, we will strive harder to play active roles in creating a sustainable society.

Very respectfully yours,

Asahi Kasei Finechem Co., Ltd.
